BCA Names State Troopers Involved in Deadly Force Incident

ST. PAUL – The Hennepin County Medical Examiner's Office has confirmed the identity of the man a Minnesota State Patrol trooper shot and killed on July 31. According to the medical examiner, Ricky Cobb II, 33, of St. Cloud died from multiple gunshot wounds.

As part of its ongoing investigation, the Minnesota Department of Public Safety Bureau of Criminal Apprehension (BCA) has identified the Minnesota State Patrol trooper who shot Cobb II.

• Ryan Londregan fired his department handgun. He has about a year and a half of law enforcement experience.

Londregan and Trooper Brett Seide both suffered minor injuries during the incident. Seide has two years of law enforcement experience and did not use force. The third trooper who responded is Garrett Erickson. He has about three years of law enforcement experience. He did not use force and was not injured. All three troopers are on standard administrative leave.

According to the preliminary investigation, on July 31 at about 1:50 a.m., Seide saw a car drive past him on Interstate 94 without rear lights on. When he pulled the car over, Seide learned the driver, identified as Cobb II, was wanted on probable cause arrest for a felony order-for-protection violation issued by Ramsey County. As Seide was gathering this information, Londregan and Erickson pulled up to assist.

As seen in the dash camera and body-worn camera video released Aug. 1 to the public, the three troopers approached Cobb II's car. They asked him to get out of his car, then attempted to physically remove him because he refused to exit. Londregan fired his handgun during that attempt, striking Cobb II.
