Ladies when dating pay attention to the small red flags, and in a marriage if he says the most when "MAD" trust he means it. No amount of love from you can change one that doesn't realize he has a problem, learn wr they come from like their up bringing if anger, malice, abuse of any kind, disrespect of any kind neglect etc. Etc. Etc.,RUN!!! doesn't matter how handsome or how he can finesse you with words those traits will leave you somewhere crying your eyes out cause this isn't how your life is posed to be smdh don't make things look like something it's not because you don't wanna look silly you look silly staying where the love isn't equal. His status quo ain't shy't when it comes to your womanhood, if his ass ain't shy't that's just what it is. Don't be afraid to be on your own, don't stay for the kids because they will be damaged too. Love yourself gurl like you've never loved before 😊 and people please PLEASE concentrate on her getting out NOT why did she stay so long, help her, encourage her, uplift her... I currently am accepting all that, lord knows I need it more than ever 😭😭😭
