Rose Marie Leslie, MD
@DrLeslie_MD

So MN doctors, should we start a Physicians Against Scott Jensen campaign???

We all know he is a Covid denier practicing unethical and non-evidence based medicine.

I worked with fellow docs to get him kicked off of Tiktok for misinformation.

Time for him to go.

Hes a member of “American Frontline Doctors”, promotes ivermectin for Covid, doesn’t recommend the Covid vaccine for a large number of his patients,has blamed the government for falsifying Covid death numbers, and he has been investigated by the Minnesota Medical Board 5 times.
