this morning's A1 on the srib is essential reading. our local police departments use illegal war tactics in our communities against black lives matter demonstrations and they have been doing this for--at least--the past year in MPLS and the surrounding areas.

Militia/Mercenary weapons companies sell military-style weapons to police departments, who then don't report what they're buying or using to anyone. There's no accountability for using these tactics. Nobody even knows what chemicals are being used because no agency has oversight over the use of chemical weapons by police on citizens. They just use what they use, and then arrest journalists and beat up protesters, and then, do it again.

Abolish Police.
