I arrived in Atlanta almost broke, just me and my dog in my truck. But thanks to community & rad homies here I got a place to sleep, food in my belly, medicine, support and care. Also the opportunity to be again around relatives, from past campaigns and actions., land defenders, frontliners it's always the right medicine. The energy, the kinship,, the radness, the laughs and the great moments are always healing. ATL dope place to be [#StopCopCity](#) [#SaveWellaunee](#)

**Here's another defendant resource: Giniw Collective is coordinating a court support house in Bemidji, Minnesota, to house incoming defendants in a movement-friendly space (chickens and doggos anyone?), transport you to your hearing, and be a listening ear.**
