**Synopsis :**  
Information report occurred at Regions Hospital, 640 Jackson St.

**Narrative :**  
No ICC  
BWC was activated and reviewed prior to report.

I, Sgt. A. Rahlf, B161, was working COT at Regions Hospital (640 Jackson St) on 01/02/26 at approx. 2136 hours.

I was made aware by Regions Hospital staff that they believed a member of the St Paul City Council was on her way to Region's Hospital because she believed ICE Agents were there. I advised Regions Security Supervisor Davila of this information.

Shortly after, an Emergency Room charge nurse and a nurse supervisor told me that the city council member was there. I saw a group of people standing in the Emergency Department (ED) lobby area that had visitor stickers on but did not have room numbers on them. Supervisor Davila arrived in the ED lobby.

Supervisor Davila and I approached the group and asked if we could help them. The group was asked repeatedly for a name of the patient they were visiting and they could not provide a name, only that they were visiting a loved one that they care about. It was explained to the group that if given a name, we could tell the group where the patient was located and give them access to the patient. If they can't provide a name, they would have to leave the hospital. This was explained multiple times without the group moving from the lobby or giving a name.

It was at this time that I believed the group was provided patient information by a hospital staff member.

One person in the group identified themselves as the vice president of the St Paul City Council and gave her name, HWA JEONG KIM. Another person identified themselves as a state representative, later identified as LIISH KOZLOWSKI. KIM said they were waiting for someone they care about and were trying to confirm their presence and the identity which they did not have.

I informed the group that visiting hours ended at 2000 hours so they would not be able to visit anyone anyway.

The group eventually left but were met by a RSCO deputy who they engaged with briefly before exiting the building.

Nothing further.
